

# PowerFlex™

80-100

General purpose  
knitted and  
dipped glove

Superb mechanical  
performance with  
comfort and a sure grip

The Ansell PowerFlex 80-100 glove is designed for use in a wide range of handling and carrying applications. In both wet and dry conditions, this glove grips superbly. It stands up to wear and

cuts and offers plenty of comfort. For optimum productivity and safety in construction, transport, and shipping and receiving, the PowerFlex 80-100 is the smart and logical choice.

**Ansell**

## Recommended usage

Handling and carrying in:

- construction
- refuse collection
- transport
- public maintenance
- shipping and receiving

### Excellent mechanical performance and cut resistance

Thanks to its newly formulated natural rubber latex coating, the Ansell PowerFlex 80-100 glove delivers excellent overall mechanical performance for maximal protection and durability. In particular, it has a cut resistance rating of EN level 2.

### Sure grip and safety

The latex coating's raised crinkle finish gives the glove an excellent grip in both dry and wet conditions. The secure grip also helps to protect workers' hands against accidental cuts.

### Specifications

Ref.	Type	Style	EN Size	Length	Overedge colour
80-100	Palm coated	Knitwrist	7	245 mm	red(7)
			8	245 mm	yellow(8)
			9	255 mm	brown(9)
			10	265 mm	black(10)

### Packaging

12 pairs per polybag, 12 polybags per carton

### Superb overall comfort

The automatic knitted liner delivers an optimally tensioned inner surface for superb fit and flexibility. The glove's seamless liner helps to avoid irritations.

Using Ansell's three-dimensional CAD/CAM manufacturing technology to accomplish perfect forming and dipping, a precise coating surface is achieved, consistently and comfortably matching the hand's contours. This supports hands' natural dexterity.

Because the glove's latex coating is only applied where it's critical to safe and sure handling, the back of the glove breathes, giving the wearer all-day comfort.

The latex coating absorbs pressure when carrying heavy objects, which makes handling more comfortable.
